

UNITED STATES DISTRICT COURT  
WESTERN DISTRICT OF WASHINGTON  
AT SEATTLE

JOE CALLAN, et al.,

**Plaintiffs,**

V.

MOTRICITY INC, et al.,

## Defendants.

C11-1340 TSZ

## ORDER

THIS MATTER comes before the Court on the motion of defendants Motricity

Inc. (“Motricity”), Ryan K. Wuerch, James R. Smith, Jr., Allyn P. Hebner, James N.

Ryan, Jeffrey A. Bowden, Hunter C. Gary, Brett Icahn, Lady Barbara Judge, Suzanne H.

King, and Brian Turner (collectively, the “Motricity Defendants”) to dismiss, docket

no. 114, and the motion of defendants J.P. Morgan Securities, Goldman, Sachs & Co.

Deutsche Bank Securities Inc., RBC Capital Markets Corporation, Robert W. Baird Co.

Inc., Needham & Company, LLC, and Pacific Crest Securities LLC (collectively, the "Underwriters").

<sup>33</sup> “Underwritten Defendant,” to Dennis DeLoach, 113, *Hairpin*, 212-213.

<sup>61</sup> See also the following section on the construction of the concept of the self in Q1.

ORDER - 1

1     Background

2                 By Order dated January 17, 2013, docket no. 101, the Court dismissed plaintiffs'  
3 Second Amended Complaint ("SAC"), which alleged claims for securities fraud against  
4 the Motricity Defendants and the Underwriter Defendants. The Court subsequently  
5 denied plaintiffs' motion for reconsideration. Minute Order (docket no. 103). Plaintiffs  
6 have now filed a Third Amended Complaint ("TAC"), which realleges the claims that the  
7 Court previously dismissed without prejudice. The TAC adds little to the SAC. For the  
8 most part, plaintiffs have merely repackaged the facts alleged in the SAC and recycled  
9 their previous arguments, without adding any new substance to their allegations. This  
10 Order will therefore focus only on allegations that are unique to the TAC. The analysis  
11 and reasoning of the Court's Order of January 17, 2013, docket no. 101, is incorporated  
12 by reference and will not be repeated.

13                 Because the parties are familiar with the facts, they are not recited here in great  
14 detail. See Order at 3-9 (docket no. 101). On June 17, 2010, Motricity conducted an  
15 Initial Public Offering ("IPO"), offering approximately 6 million shares of the company's  
16 stock to the public at a price of \$10 a share. TAC at ¶¶ 1-2 (docket no. 104). In  
17 connection with the IPO, the company issued a Registration Statement and an offering  
18 prospectus (collectively, the "Registration Statement"). Id.; see Ex. A to Escobar Decl.  
19 (docket no. 116-1). The stock reached a class period high of \$30.47 per share in  
20 November 2010, before falling precipitously in the second half of 2011. TAC at ¶ 5. On  
21 July 11, 2012, shortly before this lawsuit was filed, Motricity stock was trading at \$0.61  
22 per share. Id.

1 Plaintiffs allege violations of the Securities Act of 1933 and the Securities  
2 Exchange Act of 1934 on behalf of themselves and a putative class of shareholders who  
3 acquired Motricity common stock traceable to the Registration Statement issued in  
4 connection with Motricity's IPO, and/or who purchased or acquired Motricity common  
5 stock between June 18, 2010, and November 14, 2011 (the "Class Period"). Specifically,  
6 plaintiffs claim that the Motricity Defendants and the Underwriter Defendants negligently  
7 prepared and made materially false statements concerning the functionality of Motricity's  
8 software product in the Registration Statement. TAC at ¶¶ 2, 34-40. Plaintiffs  
9 additionally claim that the Motricity Defendants made a number of false and misleading  
10 statements during the class period concerning the functionality of Motricity's products  
11 and services and falsely claimed that Motricity's contract with XL Axiata was financially  
12 healthy and "on track," when it was not. TAC at ¶¶ 3, 41-73. Plaintiffs allege that these  
13 false and misleading statements were made intentionally or with deliberate recklessness  
14 and materially misled the investing public. Plaintiffs rely on confidential witnesses and  
15 allegedly suspicious stock sales by individual defendants, along with the "core operations  
16 inference," to argue that the Court may infer scienter. TAC at ¶¶ 74-94.

17 **Discussion**

18       A.     **Rule 12(b)(6) Standard**

19       To survive a motion to dismiss brought pursuant to Federal Rule of Civil  
20 Procedure 12(b)(6), a plaintiff must allege "enough facts to state a claim to relief that is  
21 plausible on its face." Bell Atl. Corp. v. Twombly, 550 U.S. 544, 570 (2007). In  
22 reviewing the adequacy of a complaint, the Court must accept all well-pleaded  
23

1 allegations as true. South Ferry LP, No. 2 v. Killinger, 542 F.3d 776, 782 (9th Cir. 2008).  
2 This tenet, however, is “inapplicable to legal conclusions.” Ashcroft v. Iqbal, 556 U.S.  
3 662, 678 (2009). Thus, a pleading that offers only “labels and conclusions” or “a  
4 formulaic recitation of the elements of a cause of action will not do.” Twombly, 550 U.S.  
5 at 555. If the plaintiff “ha[s] not nudged [its] claims across the line from conceivable to  
6 plausible, [the] complaint must be dismissed.” Id. at 570.

7       **B.     Section 11 Claims Against All Defendants**

8       Plaintiffs allege that the Registration Statement contains false and misleading  
9 statements concerning the functionality of Motricity’s products and omits materially  
10 relevant information. Section 11 of the Securities Act of 1933 creates a private remedy  
11 for any purchaser of a security if the registration statement published in connection with  
12 the offering “contained an untrue statement of a material fact or omitted to state a  
13 material fact required to be stated therein or necessary to make the statements therein not  
14 misleading.” 15 U.S.C. § 77k(a). To prevail on a Section 11 claim, a plaintiff must  
15 prove “(1) that the registration statement contained an omission or misrepresentation, and  
16 (2) that the omission or misrepresentation was material, that is, it would have misled a  
17 reasonable investor about the nature of his or her investment.” In re Daou Sys., Inc. Sec.  
18 Litig., 411 F.3d 1006, 1027 (9th Cir. 2005). Section 11 “was designed to assure  
19 compliance with the disclosure provisions of the Act by imposing a stringent standard of  
20 liability on the parties who play a direct role in a registered offering.” Herman &  
21 MacLean v. Huddleston, 459 U.S. 375, 381-82 (1983). Under Section 11, “[l]iability

1 against the issuer of a security is virtually absolute, even for innocent misstatements,” if  
 2 the plaintiff can show a material misstatement or omission. *Id.* at 382.

3 “[W]hether a public statement is misleading, or whether adverse facts were  
 4 adequately disclosed is a mixed question to be decided by the trier of fact.” *Fecht v.*  
 5 *Price Co.*, 70 F.3d 1078, 1081 (9th Cir. 1995). Thus, a court may only determine the  
 6 issue of materiality as a matter of law when “the adequacy of the disclosure or the  
 7 materiality of the statement is ‘so obvious that reasonable minds [could] not differ.’” *Id.*  
 8 (alteration in original).

9       Although Section 11 claims do not require an allegation of scienter, *Kaplan v.*  
 10 *Rose*, 49 F.3d 1363, 1371 (9th Cir. 1994), a Section 11 claim that sounds in fraud must  
 11 satisfy the particularity requirements of Federal Rule of Civil Procedure 9(b). *Daou*, 411  
 12 F.3d at 1027; see also *Rubke v. Capitol Bancorp, Ltd.*, 551 F.3d 1156, 1161 (9th Cir.  
 13 2009). For the same reasons discussed in the Court’s prior Order, the Court concludes  
 14 that the TAC “‘alleges a unified course of fraudulent conduct’ and ‘relies entirely on that  
 15 course of conduct as the basis of [the Securities Act claims],’” and therefore “sounds in  
 16 fraud.” See Order at 12-13 (docket no. 101) (quoting *Rubke*, 551 F.3d at 1161; *Daou*,  
 17 411 F.3d at 1028). Plaintiffs’ renewed argument that their Section 11 claim is distinct  
 18 from their Section 10(b) claim, Response at 7-8 (docket no. 119), is without merit. A  
 19 party alleging fraud “must state with particularity the circumstances constituting fraud.”  
 20 Fed. R. Civ. P. 9(b). “In order to allege fraud with particularity, the complaint must both

21

22

23

1 identify the allegedly fraudulent statement and explain why it was false when made.” In  
 2 re Metro. Sec. Litig., 532 F. Supp. 2d 1260, 1279 (E.D. Wash. 2007).<sup>1</sup>

3 Plaintiffs contend that the Registration Statement falsely represented that  
 4 Motrivity’s mCore platform provided unlimited access to the Internet to some 35 million  
 5 mobile phone customers, when in fact the product was used by AT&T, Verizon, and  
 6 other wireless carriers to provide “walled-garden” access to the Internet through the  
 7 carriers’ custom portal. Plaintiffs argue that this misrepresentation in the Registration  
 8 Statement led investors to believe that Motrivity’s product was on par with the open  
 9 access smartphones from Apple and Google. The allegations in the TAC differ little  
 10 from those of the SAC and plaintiffs’ argument is likewise virtually unchanged. For the  
 11 reasons articulated in the Court’s previous Order, the Registration Statement adequately  
 12 disclosed to investors that the mCore product was distinct from the emerging smartphone  
 13 market and that, indeed, Apple and Google’s new open access smartphone offerings  
 14 presented a direct risk to Motrivity’s business model. Order at 18-23 (docket no. 101).

15 Specifically, the Registration Statement warned investors:

16       ***Open mobile phone operating systems and new business models may***  
 17 ***reduce the wireless carriers’ influence over access to mobile data***  
***services, and may reduce the total size of our market opportunity.***

18 The majority of our revenue is based on mobile subscribers accessing  
 19 mobile content and applications through our customers’ carrier-branded  
 20 mobile solutions. However, with the growth of the iPhone and smartphone  
 21 business models, our customers’ services may be bypassed or become  
 22 inaccessible. These business models, which exclude carrier participation

---

21  
 22 <sup>1</sup> In this case, the Court concludes that even under the less stringent standard imposed by Federal Rule of  
 Civil Procedure 8(a), the TAC fails to state a claim under Section 11.

beyond transport, along with the introduction of more mobile phones with open operating systems that allow mobile subscribers to browse the Internet and, in some cases, download applications from sources other than a carrier's branded services, create a risk that some carriers will choose to allow this non-branded Internet access without offering a competitive value-added carrier-branded experience as part of their solution set. These so-called "open operating systems" include Symbian, Blackberry, Android, Windows Mobile, and webOS. We believe wireless carriers need to offer branded services that can compete head-to-head with the new business models and open technologies in order to retain mobile subscribers and increase ARPU. Although our solutions are designed to help wireless carriers deliver a high value, competitive mobile data experience, if mobile subscribers do not find these carrier-branded services compelling, there is a risk that mobile subscribers will use open operating systems to bypass carrier-branded services and access the mobile Internet. It is also possible one or more wireless carriers will adopt a non-carrier branded, third-party web portal model. To the extent this occurs, the total available market opportunity for providing our current services and solutions to carriers may be reduced.

Registration Statement at 15 (docket no. 116-1 at 20). This disclosure clearly spells out the information that plaintiffs claim was omitted from the Registration Statement, namely that "the majority of [Motricity's] revenue is based on mobile subscribers accessing mobile content and applications through [its] customers' carrier-branded mobile solutions" and that "with the growth of the iPhone and smartphone business models, [its] customers' services may be bypassed or become inaccessible."

Plaintiffs also allege that the Registration Statement omitted information concerning a "known trend" in Motricity's business that was required to be disclosed under Section 11(h). A form S-1 registration statement must "[d]escribe any known trends or uncertainties that have had or that the registrant reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operation." 17 C.F.R. § 229.303(a)(3)(ii). The TAC alleges that defendants

1 were required to disclose information concerning a dramatic shift in control over mobile  
2 phone customers away from Motricity's clients, mobile operators, and in favor of device  
3 manufacturers such as Apple and Google. Plaintiffs' claim, that Motricity knew of this  
4 shift prior to the IPO and failed to disclose it in the Registration Statement, is based  
5 entirely upon a statement by Motricity's Chief Executive Officer ("CEO") Ryan Wuerch,  
6 on March 15, 2011, that "[a]bout 14 months ago, we started seeing, the shift happen and  
7 quite dramatically in the smartphone business." TAC at ¶¶ 38-39. This same claim was  
8 alleged in the SAC. See SAC at ¶¶ 34, 61, 62 (docket no. 82).

9 Plaintiffs' Section 11(h) claim fails because Wuerch's March 15, 2011, statement  
10 does not support plaintiff's contention that Motricity knew, almost a year prior, that a  
11 "dramatic shift" had already occurred. As the Court previously recognized, Wuerch's  
12 statement was made from the vantage of March 2011. Order at 16-17 (docket no. 101).  
13 Read in context, Wuerch's statement, Tr. at 4-5, Ex. K to Escobar Decl. (docket no. 116-  
14 11), fails to support the inference that, at the time the Registration Statement was issued,  
15 defendants knew a dramatic shift in market conditions had already occurred. Rather,  
16 Wuerch was discussing the ongoing shift from market control by mobile operators to  
17 market control by device manufacturers. Id. The alleged omission of this information  
18 from the Registration Statement is therefore not actionable.

19       **C. Section 10(b) Claims Against Motricity Defendants**

20 Plaintiffs bring two claims against the Motricity Defendants under Section 10(b)  
21 of the Securities Exchange Act of 1934, 15 U.S.C. § 78j(b), and Securities and Exchange  
22 Commission ("SEC") Rule 10b-5. They contend that the Motricity Defendants made  
23

1 false and misleading statements after the IPO concerning: (1) the Motricity product's  
2 functionality, and (2) Motricity's contract with XL Axiata. TAC at ¶¶ 3, 41-73.

3 Rule 10b-5 makes it unlawful to make "any untrue statement of material fact or to  
4 omit to state a material fact necessary in order to make the statements made, in light of  
5 the circumstances in which they were made, not misleading." 17 C.F.R. § 240.10b-5(b).  
6 In order to prevail on a claim under Rule 10b-5, a plaintiff must show: (1) a material  
7 misrepresentation or omission; (2) made with a wrongful state of mind (scienter); (3) in  
8 connection with the purchase or sale of a security; (4) reliance; (5) economic loss; and  
9 (6) loss causation. Dura Pharm., Inc. v. Broudo, 544 U.S. 336, 341-42 (2005).

10 Because a complaint that alleges claims under Section 10(b) and Rule 10b-5 must  
11 satisfy the heightened pleading requirements of Federal Rule of Civil Procedure 9(b) and  
12 the Private Securities Litigation Reform Act of 1995 ("PSLRA"), Zucco Partners, LLC v.  
13 Digimarc Corp., 552 F.3d 981, 990 (9th Cir. 2009), the complaint must "specify each  
14 statement alleged to have been misleading, the reason or reasons why the statement is  
15 misleading, and, if an allegation . . . is made on information and belief, the complaint  
16 shall state with particularity all facts on which that belief is formed." 15 U.S.C. § 78u-  
17 4(b)(1)(B). In addition, the PSLRA requires that the complaint "state with particularity  
18 facts giving rise to a strong inference that the defendant acted with the required state of  
19 mind." 15 U.S.C. § 78u-4(b)(2)(A).

20 **1. Confidential Witnesses**

21 Plaintiffs rely upon the statements of five confidential witnesses (denominated as  
22 CW1 – CW5) to support their Section 10(b) claims. Plaintiffs have augmented their  
23

1 pleading with respect to CW3 and CW4 in response to the Court's previous conclusion  
2 that the allegations concerning those witnesses were insufficiently detailed to establish  
3 reliability and personal knowledge as required by the PSLRA. See TAC at ¶¶ 78-79. In  
4 addition, the TAC adds a fifth confidential witness. TAC at ¶ 84.

5 In order for a complaint to rely on the statements of a confidential witness, the  
6 confidential witness must be described with sufficient particularity to establish his or her  
7 reliability and personal knowledge, and the statements that are reported by confidential  
8 witnesses must themselves be indicative of scienter. Zucco Partners, 552 F.3d at 995;  
9 Limantour v. Cray Inc., 432 F. Supp. 2d 1129, 1141-42 (W.D. Wash. 2006). The Court  
10 concludes that the TAC describes each of the confidential witnesses with enough  
11 specificity to merit the Court's consideration. Specifically, the TAC has provided  
12 additional details of CW3's employment responsibilities, including that he or she  
13 investigated, analyzed, and documented the changes that carrier customers made when  
14 redesigning their portals. TAC at ¶ 78. Similarly, the TAC now lists additional details of  
15 CW4's employment, describing that he or she was familiar with Motricity's products  
16 because he or she was responsible for updating the news for Verizon's Internet portal.  
17 TAC at ¶ 79.

18 CW5 is described as working for Motricity throughout 2011 in global program  
19 management, including leading product development, delivery, and launch for  
20 Motricity's Asian carrier customers. TAC at ¶ 84. According to the TAC, CW5 was  
21 responsible for hiring and managing software engineers who were tasked with fulfilling  
22 Motricity's Asian contracts. CW5 claims that the software product that Motricity

1 provided to its Asian carrier customers “was not what the carriers wanted or expected,”  
 2 and the Asian carriers were “also dissatisfied with the level of customer detail provided  
 3 by Motricity’s platform.” Id.

4 Because the TAC provides sufficient details about the confidential witnesses’  
 5 employment at Motricity to establish their reliability and personal knowledge, the Court  
 6 has considered these statements in assessing plaintiffs’ Section 10(b) claims.

7 **2. Product Functionality**

8 Plaintiffs assert that Motricity misrepresented the functionality of its mCore  
 9 platform after the IPO by suggesting that the mCore platform provided Internet access  
 10 on-par with the Internet access provided by smartphones. See TAC at ¶¶ 41-43, 46, 48.  
 11 Because plaintiffs’ claim relies on the same kind of vague statements that the Court  
 12 previously characterized as non-actionable “puffery,” this claim does not withstand  
 13 scrutiny. See Order at 36-40 (docket no. 101). Specifically, the Court again concludes  
 14 that what constitutes “all of the best content, applications, widgets and services available”  
 15 on the Internet, TAC at ¶ 43, is a matter of opinion and is not a statement about the  
 16 “specific or absolute characteristics” of the software. Newcal Indus., Inc. v. Ikon Office  
 17 Solution, 513 F.3d 1038, 1053 (9th Cir. 2008). This statement is not of the type on which  
 18 a reasonable investor would rely when considering the total mix of available information.  
 19 See In re Metawave Commc’ns Corp. Sec. Litig., 298 F. Supp. 2d 1056, 1090-91 (W.D.  
 20 Wash. 2003). Similarly, the press release indicating that the mCore MobileCast product  
 21 was “designed to give smartphone subscribers real-time, zero touch access to all the  
 22 relevant content, applications, goods and services they care about most, directly to their

1 ‘phonetop,’” TAC at ¶ 46, is not a statement of fact. Rather, it is exactly the kind of  
 2 “exaggerated” and “vague” puffery that courts routinely conclude is not actionable under  
 3 Section 11. See, e.g., Metawave Commc’ns, 298 F. Supp. 2d at 1090-91; Newcal Indus.,  
 4 513 F.3d at 1053.

5 Plaintiffs have added no meat to the bones of their claim that defendants  
 6 misrepresented the functionality of Motricity’s products in various statements by insiders  
 7 after the IPO. The Court dismisses the Section 11 functionality claim in the TAC for the  
 8 same reasons that are articulated in more detail in the Court’s previous Order dismissing  
 9 the SAC.

10       **3. XL Axiata Contract**

11 Plaintiffs’ second claim under Rule 10b-5 is that defendants’ assurances to  
 12 investors that Motricity’s Asian contracts were “on schedule” and “on track” were false  
 13 and misleading. TAC at ¶¶ 57, 59, 61, 65, 72. The TAC focuses primarily on two  
 14 statements. First, the TAC alleges that Weurch’s August 2011 conference call  
 15 concerning the company’s second quarter of 2011 financial results included false or  
 16 misleading statements about the company’s progress in Asia. Specifically, during that  
 17 call, Weurch stated :

18       During Q2, we continued to make progress with current customers in Asia-  
 19 Pacific, including XL, Celcom, and Reliance. Starting with XL we recently  
 20 launched our marketplace mobile storefront ahead of schedule. . . . In  
 21 addition to XL, our deployment team successfully rolled out a soft launch  
 22 of Celcom mobile portal. This is the third carrier in Asia to be launching  
 23 on the Motricity platform. We also released Marketplace for Reliance,  
 which is hosted in our new data center in India. In short, we continue to  
 execute against our carrier customers’ plans and goals. . . . Specific to XL,  
 nothing is delayed. In fact, we see XL being right on track.

1 TAC at ¶ 65. Additionally, the TAC again points to the statement by Motrivity's Interim  
2 CEO Jim Smith on November 14, 2011, that XL "continues to stay on track." TAC at  
3 ¶ 72.

4 Plaintiffs contend that these reassurances by Motrivity that its Asian business was  
5 moving along "on track" and "on schedule" simply could not have been true because, on  
6 January 5, 2012, Motrivity announced the cancellation of the XL Axiata contract as of  
7 December 31, 2011, and two weeks later, Motrivity announced the cancellation of its  
8 operations in India and the Asia-Pacific region. See TAC at ¶ 85. Additionally, plaintiffs  
9 point to a press release on January 24, 2012, announcing XL Axiata's new partnership  
10 with Blaast, a competitor of Motrivity. TAC at ¶¶ 73 & 85. Plaintiffs argue that the  
11 termination of Motrivity's Asian business operation supports a reasonable inference that  
12 Motrivity's earlier statements representing that its Asian contracts were "on track" were  
13 false and misleading when made.

14 The Court rejects plaintiffs' argument that the cancellation of Motrivity's Asian  
15 business operation in early 2012 necessarily implies that Weurch's and Smith's  
16 statements in August and November of 2011, respectively, were false when made. This  
17 argument fails because fraud by hindsight is not actionable. In re Metawave Commc'nns  
18 Corp. Sec. Litig., 629 F. Supp. 2d 1207, 1219 (W.D. Wash. 2009). "The fact that [a]  
19 prediction proves to be wrong in hindsight does not render the statement untrue when  
20 made." In re VeriFone Sec. Litig., 11 F.3d 865, 871 (9th Cir. 1993). The Ninth Circuit  
21 recently reaffirmed this rule in In re Oracle Corp. Sec. Litig., 627 F.3d 376 (9th Cir.  
22 2010), concluding "the fact that Oracle's forecast turned out to be incorrect does not

1 retroactively make it a misrepresentation.” Id. at 389. Plaintiffs have not pleaded facts  
2 demonstrating that Motricity’s Asian contract was not “on track” or “on schedule” when  
3 those statements were made.

4 The Court again notes that many courts have deemed statements indicating a  
5 company is “on track” too vague to be actionable. Order at 44 (docket no. 101); see  
6 Institutional Investors Grp. v. Avaya, Inc., 564 F.3d 242, 246-59 (3d Cir. 2009); In re  
7 Royal Appliance Sec. Litig., 1995 WL 490131 at \*3 (6th Cir. 1995). Although plaintiffs  
8 urge the Court to conclude that the “on track” statements in this case are distinguishable  
9 from the “on track” statements that other courts have found to be non-actionable, the  
10 Court declines this invitation.

11 Finally, the additional allegations of CW5 that the software product that Motricity  
12 delivered to the Asian carriers was not what the carriers wanted or expected does not  
13 make the statements by Weurch and Smith false. These allegations might explain why  
14 the Asian carriers later cancelled their contracts with Motricity in favor of a different  
15 software product, but they do not support plaintiffs’ claim that Motricity falsely claimed  
16 that its contract was being executed “on schedule” and “on track.”

17 **D. Section 15 and Section 20(a) Claims**

18 Section 15 of the 1933 Act and Section 20(a) of the 1934 Act, concerning control  
19 person liability, both require proof of an underlying primary violation of the securities  
20 laws. 15 U.S.C. §§ 77o & 78t(a); see also No. 84 Emp’r-Teamster Joint Council Pension  
21 Trust Fund v. Am. W. Holding Corp., 320 F.3d 920, 945 (9th Cir. 2003). Because the  
22  
23

1 TAC does not adequately allege primary violations under Section 11 and Section 10(b),  
2 the Court GRANTS the Underwriter Defendants' motion to dismiss.

3       **E.     Dismissal with Prejudice**

4       Plaintiffs' complaint, docket no. 1, was filed on August 12, 2011; a consolidated  
5 complaint, docket no. 43, was filed on December 16, 2011. After defendants moved to  
6 dismiss, plaintiffs were allowed, pursuant to the parties' stipulation, docket no. 62, to  
7 amend the consolidated complaint. Plaintiffs filed their First Amended Complaint,  
8 docket no. 66, on May 11, 2012. Defendants again moved to dismiss, and plaintiffs were  
9 again, pursuant to the parties' stipulation, docket no. 81, permitted to amend their  
10 pleading.

11       The Second Amended Complaint, docket no. 82, was filed on July 11, 2012, and  
12 defendants promptly moved to dismiss the SAC. The Court heard oral argument on the  
13 motions to dismiss on December 14, 2012, Minutes (docket no. 99), carefully considered  
14 plaintiffs' SAC, and issued a 50-page Order, docket no. 101, granting the motion to  
15 dismiss, on January 17, 2013. Plaintiffs' motion for reconsideration, docket no. 102,  
16 raised some of the same issues relating to XL Axiata that plaintiffs present in their  
17 response to the pending motions to dismiss. Specifically, plaintiffs' motion for  
18 reconsideration focused on Steve Cordial's statements indicating that the XL Axiata and  
19 Celcom contracts were "on track" and "on target," respectively, which plaintiffs argued  
20 were misleading. Plaintiffs' motion for reconsideration was denied by Minute Order,  
21 docket no. 103, entered on February 7, 2013. The Third Amended Complaint, docket  
22 no. 104, was filed on April 17, 2013, and defendants' motions to dismiss followed.

1       Neither the Registration Statement itself nor the risks disclosed in the Registration  
2 Statement have changed since June 17, 2010, when they were filed with the Securities  
3 and Exchange Commission. The allegations in the TAC are essentially the same as those  
4 in the SAC, which the Court has previously dismissed. Plaintiffs' Section 10(b) claims  
5 are premised on the basic facts previously analyzed by the Court. The TAC continues to  
6 challenge the same statements about the product functionality and Motricity's XL Axiata  
7 contract being "on track," notwithstanding the Court's rejection of these allegations in the  
8 Order dismissing the SAC.

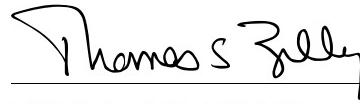

9           The Court concludes that plaintiffs' TAC should be dismissed with prejudice. The  
10 TAC repeats, with only minor changes, what the Court has already rejected. The fact that  
11 plaintiffs have failed, in the TAC, to correct the deficiencies identified in the SAC is  
12 strong indication that plaintiffs have no additional facts to plead. In re Vantive Corp.  
13 Sec. Litig., 283 F.3d 1079, 1098 (9th Cir. 2002), abrogation on other grounds recognized  
14 by South Ferry LP, No. 2 v. Killinger, 542 F.3d 776, 784 (9th Cir. 2008). The Court  
15 concludes that plaintiffs' TAC should also be dismissed with prejudice for repeated  
16 failures to cure deficiencies and because any further amendment would be futile in light  
17 of Motricity's public risk disclosures in the Registration Statement and the nature of the  
18 statements at issue. See Zucco Partners, 552 F.3d at 1007.

19 **Conclusion**

20           The Motricity Defendants' motion to dismiss, docket no. 114, and the Underwriter  
21 Defendants' motion to dismiss, docket no. 113, are GRANTED. Plaintiffs' Third  
22 Amended Complaint is DISMISSED with prejudice. The Clerk is DIRECTED to enter  
23

1 judgment consistent with this Order, to close this case, and to send a copy of this Order to  
2 all counsel of record.

3 Dated this 1st day of October, 2013.
